Type I Tree Conservation Plan Notes

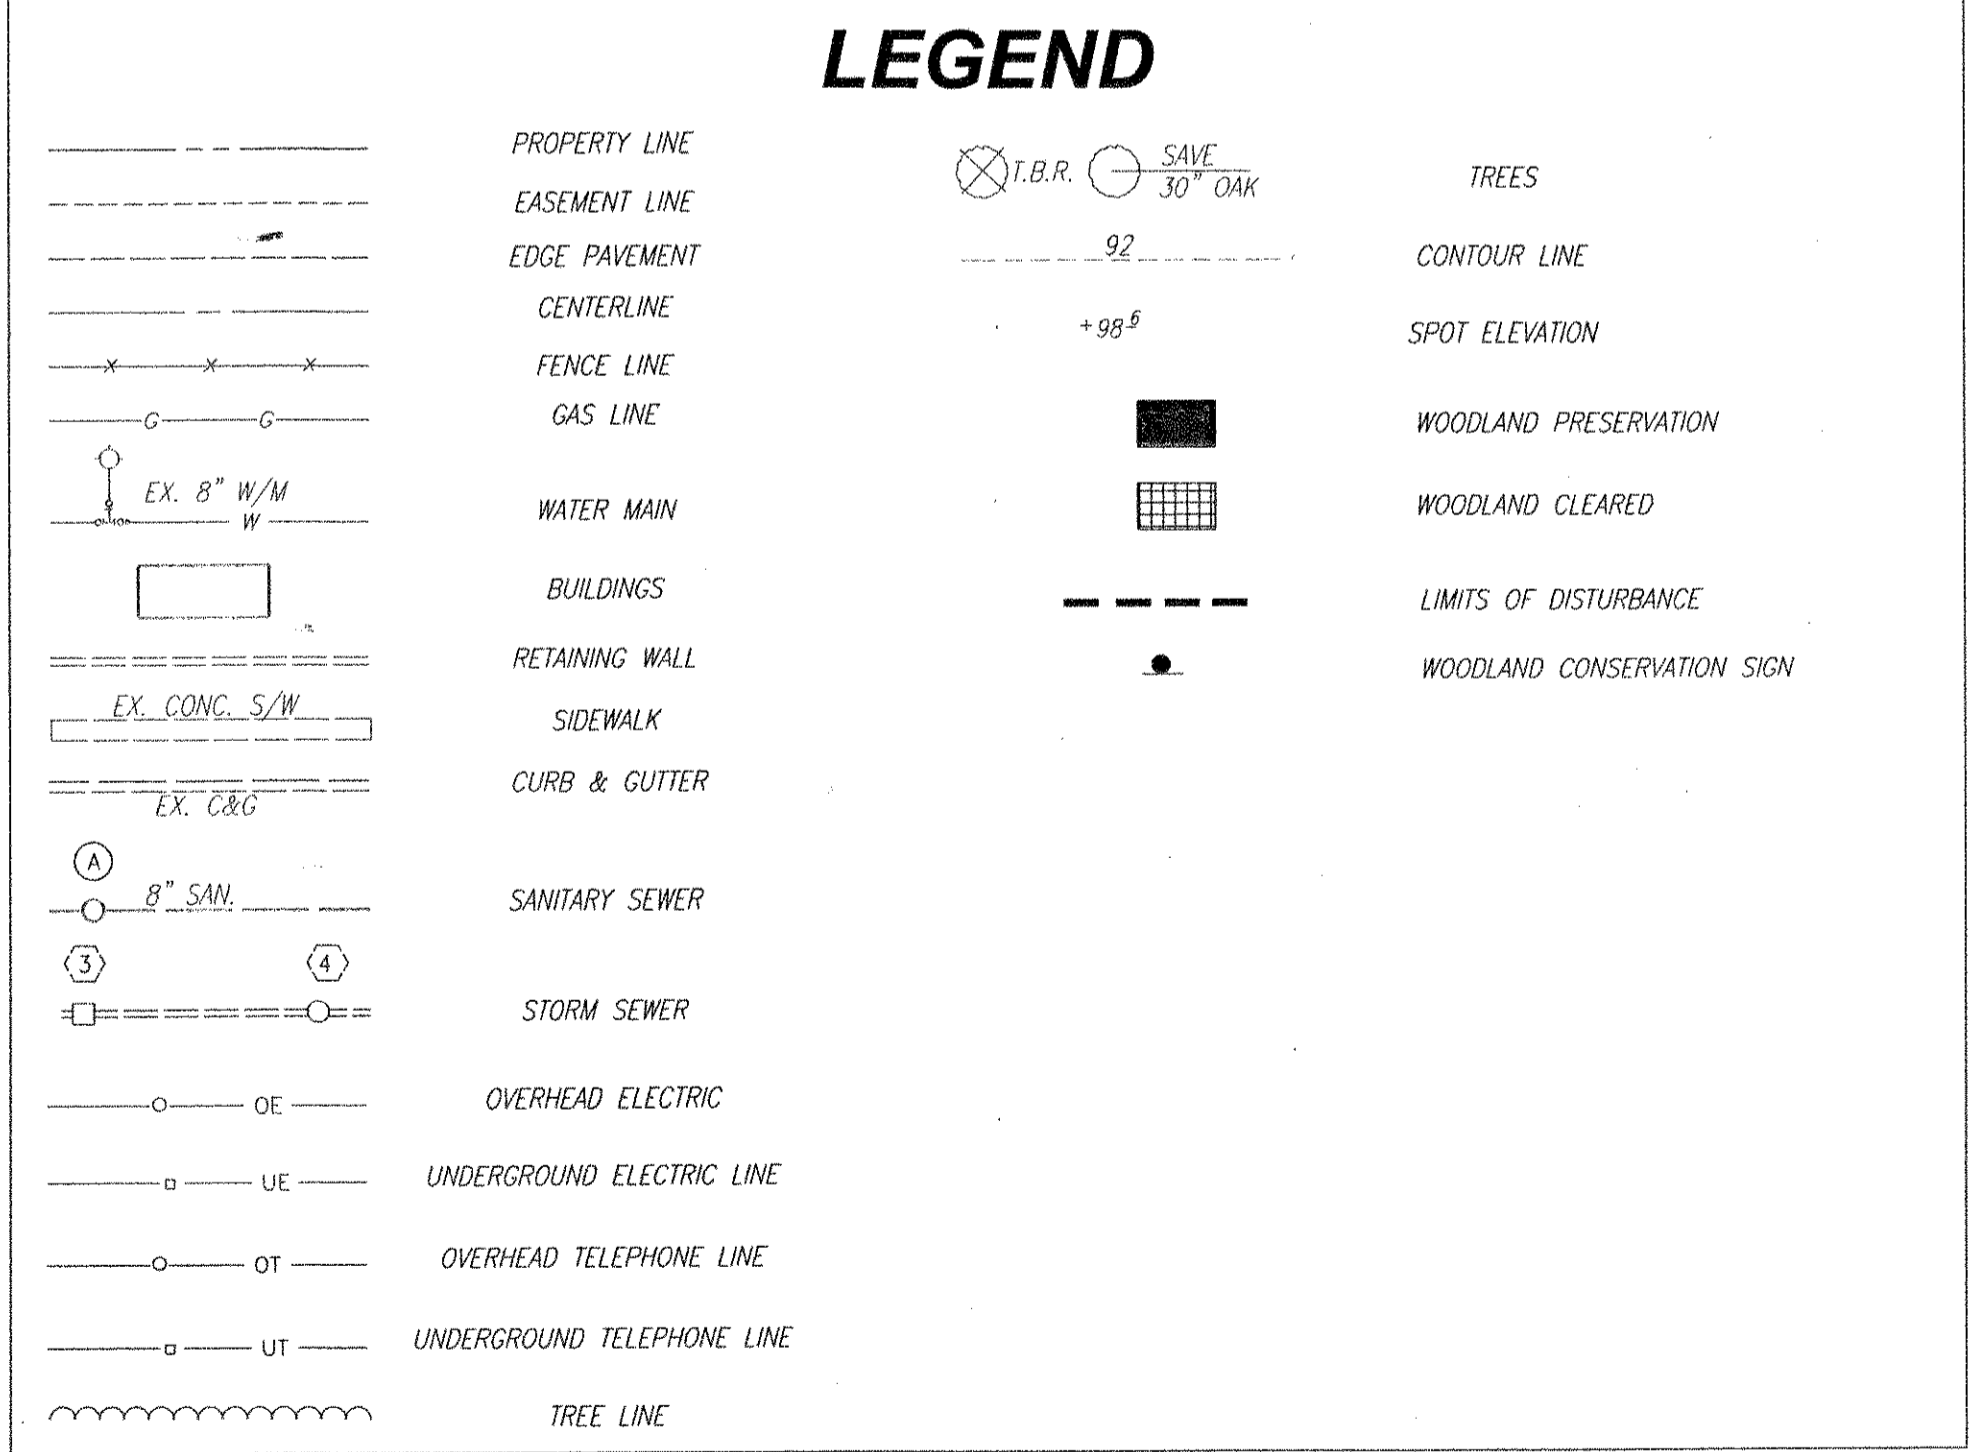

- This plan is conceptual in nature and is submitted to fulfill the Woodland Conservation requirements for 4-06137. The TCPI will be modified by a Type II Tree Conservation Plan in conjunction with the approval of a Detailed Site Plan, a Specific Design Plan, and/or a Grading Permit application.
- The Type II Tree Conservation Plan will provide specific details on the type and location of protection devices, signs, reforestation, afforestation, and other details necessary for the implementation of the Woodland Conservation Ordinance on this site.
- Significant changes to the type, location, or extent of the woodland conservation reflected on this plan will require approval of a revised Type I Tree Conservation Plan by the Prince George's County Planning Board.
- Cutting, clearing, or damaging woodlands contrary to this plan or as modified by a Type II Tree Conservation Plan will be subject to a fine not to exceed \$1.50 per square foot of woodland disturbed without the expressed written consent from the Prince George's County Planning Board or designee. The woodlands cleared in conflict with an approved plan shall be mitigated on a 1:1 basis. In addition, the Woodland Conservation replacement requirements (1:1, 2:1, and/or 1:1) shall be calculated for the woodland clearing above that reflected on the approved TCP.
- Property owners shall be notified by the Developer or Contractor of any Woodland Conservation Areas (Tree Save Areas, Reforestation Areas, Afforestation Areas, or Selective Clearing Areas) located on their lot or parcel of land and the associated fines for unauthorized disturbances to these areas. Upon the sale of the property the owner / developer or owner's representative shall notify the purchaser of the property of any Woodland Conservation Areas.
- Plans for Stormwater Management are contained in Conceptual Stormdrain Plan #1837-2004-01. It is understood that conceptual design plans for Stormwater Management will be approved prior to the approval of 4-06137.
- Lands to be dedicated to a public agency will only be used to fulfill the Woodland Conservation requirements if the agency provides written authorization for the use of those lands.
- Any project that proposes clearing on public land beyond that shown on the TCPI shall require a revised TCPI.
